

Dane County Board of Supervisors

Monthly Update

December 2019

Resolution aimed to reduce flooding

"We've accomplished so much this year, from protecting our lakes and lands for future generations to addressing racial justice and pursuing fairness in our criminal justice system," said Board Chair Sharon Corrigan. The resolution involves hiring a contractor to begin dredging operations on the Yahara River that will cost \$3.2 million. The Board also discussed a resolution to reconstruct County Highway BB. It will be a joint project between the County and the city of Madison. The County's share will not exceed \$1.2 million.
